

# QUALITY POLICY

CATCON has a focus to achieve excellence in business and to deliver superior civil engineering outcomes in the Power, Mining, Water and General Infrastructure sectors. CATCON brings its expertise to all of its national operations in order to achieve excellent outcomes for all parties involved.

CATCON commits to developing and improving its integrated management system, which includes quality management. External certification of the system will be maintained to the requirements of ISO 9001.

CATCON aims to satisfy client requirements regarding contractual compliance, timely execution and cooperative management and aims to achieve defect-free works.

CATCON sets measurable objectives for quality performance. There is ongoing review of the management system, company objectives and project performance.

CATCON commits to embracing new technology, encouraging, implementing new ideas and providing high quality resources and expertise to our national operations.
